

## product specification

### Our most popular multi-functional time recorder:

TM-920 with 2 colour printing and bell ringing facility.

The TM920 time recorder has been designed to be truly easy to use. It is fully programmable and comes complete with full battery backup for continued use during a power outage.

Simply insert your card and a clear, accurate clocking is printed. Features include red printing for lateness or exceptions and a bell ringing output for start/end of work and break times.

### Hardware features:

- Large backlit digital display
- Battery backup operation during power outage
- 2 colour printing
- Built in bell ringing facility
- 6 clockings per day
- Automatic or manual column shift
- Automatic daylight saving
- Includes free 10 position card rack
- Includes starter pack of 250 cards
- Includes 2 year warranty

### Time Recorder specifications:

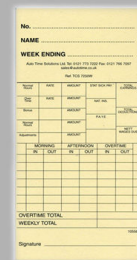

- Width: 190 mm
- Depth: 105 mm
